

POINTED STICKS

Vancouver's godfathers of power-pop Pointed Sticks are back and they are ready for radio. Teaming up with producer Steve Kravac for the new single "Infected" gave the band's sound the air and polish it needed to break-through. Steve's work with bands **Blink 182**, **M.X.P.X.**, **Less Than Jake** and **Pepper** have sold millions, culminating in an **RIAA Gold Record** awarded to him for his efforts on the Universal release "Slowly Going the Way of the Buffalo" from M.X.P.X.

Pointed Sticks have recently re-located their entire catalog to Porterhouse Records and are supporting a new full-length titled; Beautiful Future. The 12 song set is their first outing since 2015 and it contains all the pop writing smarts that fans have come to expect over the band's 40 year career.

The lead single "Infected" is a darker look for the band but one sporting the hookiness that requires another spin.
