## POWER-POP PURVEYORS POINTED STICKS CONSOLIDATE CATALOG AT PORTERHOUSE

Porterhouse Records is thrilled to announce the addition of Pointed Sticks to its roster. The Vancouver B.C. based band arrived with the west-coast's first wave of punk and power pop acts, and were at the top of every critic's list. Their debut *Perfect Youth* (1980) was an instant classic. With production from Bob Rock and artwork from Jimmy Cummings the package is considered a landmark in power-pop and punk circles.

Since reforming in 2009 Pointed Sticks have returned to the studio and created three additional full length LPs. *Three Lefts Make A Right* (2009), *Pointed Sticks* (2015) and *Beautiful Future* (2023). Porterhouse will distribute the band's entire catalog world-wide on vinyl as well as digitally. A new radio single is also on the way. "Infected," produced by veteran pop-punk knob twiddler Steve Kravac (Blink 182, MXPX, Less Than Jake) will arrive on program director's desks shortly.

Additionally, the band's 2006 compilation of singles and rarities *Waiting For The Real Thing* is also available on both black and limited edition orange 12" vinyl. The band's entire catalog is streaming at the Porterhouse website so fans can reacquaint themselves with it all, 24/7 on demand.

Subsequent releases will explore both new and legacy catalog and the band is actively playing shows, with a EU tour slated for the summer of 2024. Tour dates are posted at the Porterhouse website.
